DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 10/31/2005, with respect to claims 1-7, 9-18 & 20-22 have been fully considered and are persuasive. The rejection of these claims are withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Tytran on 3/14/2006.

The application has been amended as follows:

Regarding claim 23, this claim has been **canceled**.

Regarding claims 10, 11, 21 & 22, in line 2 of each claim, the limitation "the photo-sharing service website" has been amended as -- **a photo-sharing service website** --.

Allowable Subject Matter

3. Claims 1-7, 9-18 & 20-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art of record fails to teach or fairly suggest the combination of all limitations required in claim 1 that includes **"...downloading an action list from the server to the digital camera after the digital camera establishes a connection with the server, the action list including one or more items representing actions that the server should take with respect to uploaded images; displaying the action list to the user on the digital camera after the user initiates an image upload process; after the user selects at least one of the items in the action list, sending the images and the selected action list item from the digital camera to the server;..."**

Regarding independent claim 12, the prior art of record also fails to teach or fairly suggest the combination of all limitations required in claim 12 that includes **"...means for downloading an action list from the server to the digital camera after the digital camera establishes a connection with the server, the action list including one or more items representing actions that the server should take with respect to uploaded images; means for displaying the action list to the user on the digital camera after the user initiates an image upload process; means for sending the images and the selected action list item from the digital camera to the server after the user selects at least one of the items in the action list;..."**

Regarding claims 2-7 & 9-11, these claims are allowed as being directly or indirectly dependent from claim 1.

Regarding claims 13-18 & 20-22, these claims allowed as being directly or indirectly dependent from claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
